Spring Cleaning De-stressors

Spring Time Tips

By Jennifer Humes, Clutter Queen®

Spring is the time of year that represents new beginnings, new growth, and a fresh clean house. Does it seem like you spend a lot of time cleaning? When it comes time to clean up, spending the least amount of time is key.

New timesaving products are available to reduce the amount of time you spend cleaning so you can use that time doing the things you love.

Review

Review your cleaning supplies. Take inventory of what you have and make a list of what you need. This

will save you time when you need a pair of gloves to clean the oven.

Restock

Not sure what cleaning supplies you need? Stock up on essential cleaning supplies to ensure you don't run out while spring cleaning. Use this handy checklist before going to the store and stocking up on supplies.

Deodorize

Don't let bad odors stink up your house. Prevent bad odors before they start with an air purification product such as The Works Air Cleaner, www.theworkscleans.com, or O-ZONELite, www.ozonelite.com.

Try not to get overwhelmed with the process. Play your favorite tunes and roll up your sleeves. Once you are finished sit back, relax, and enjoy the sweet smell of a clean house.
